OBJECTIVE

I'm detail-oriented B.Sc. Computer Science graduate with a solid foundation in Java programming and web development. Currently, I'm enhancing my skills through a Full Stack Java course at Seven Mentor. I'm seeking a job opportunity to apply my academic knowledge and gain hands-on experience in Web development.

TECHNICAL SKILLS

Programming Languages	*Java, Java Script, ReactJs, Bootstrap C, C++, PHP, DSA*
Additional Course	*Java Full Stack (Web Development)*
Databases	*MySQL , Java, (DBMS)*
Tools	*VS code, Eclipse, Ubntu, Idle, Dev C++*
Additional Skills	*Excel-R Using AI, Creating Dashboard*

PROJECTS

1) My portfolio:
Here This is my portfolio website, built using modern front-end tools and frameworks. It highlights my skills, education, and showcased projects each demonstrating my approach to design and code. Dive in to explore my work, capabilities, and growth as a developer
Link: https://sejal2063.github.io/My_Portfolio/

2) Amazon clone:
The web application, I tried to make clone of Amazon shopping website. An e-commerce web application built to mimic core features of Amazon: product browsing, cart, checkout, payment, login, contact form etc.
Link: https://sejal2063.github.io/Amazon/

3) Book Store:
The Online Book store Web application with add to cart functionality. A responsive, interactive front-end application where users can browse, search, and view details of books. Built using modern front-end technologies for clean UI, smooth navigation, and dynamic filtering. Features include a shopping cart, book categories, secure signup/login, and mobile-friendly design.
